# CCAF | RISK DISCLOSURES

## Risk Disclosures and Important Information

**Past performance is not a guarantee of future results.** An investment in the Fund involves a high degree of risk and therefore should only be undertaken by qualified investors whose financial resources are sufficient to enable them to assume these risks and to bear the loss of all or part of their investment. The Fund may invest in volatile, new enterprises that require time to mature or additional capital, often relying on significant borrowing, which increases both profit potential and risk of loss. Leveraged companies face restrictive financial and operating covenants, impairing their ability to finance future operations and respond to changing conditions. The Fund and Constitution Capital do not guarantee any level of return or risk on investments and there can be no assurance that the Fund's investment objective will be achieved. For more information on risks, see the Fund's Prospectus.

An investment in the Fund should be considered illiquid. An investment in the Fund is not suitable for investors who need access to the money they invest. Although the Fund may offer to repurchase a limited amount of its shares via quarterly tender offers, the Fund's shares will not be redeemable, transferable, or otherwise exchangeable at an investor's option. As a result, an investor may not be able to sell or otherwise liquidate its shares. There can be no assurance that the Fund will conduct tender offers in any particular period and investors may be unable to tender their shares for repurchase for an indefinite period of time.

Operating results for private companies in a specified period will be difficult to predict. Such investments involve a high degree of business and financial risk that can result in substantial losses. These include Buyout Investment Risks, Venture Capital Risks and Special Situations Risks. Buyout transactions may result in new enterprises that are subject to extreme volatility, require time for maturity and may require additional capital. Venture capital investments are in private companies that have limited operating history, are attempting to develop or commercialize unproven technologies or to implement novel business plans or are not otherwise developed sufficiently to be self-sustaining financially or to become public. The special situations strategies invest in companies that may be in transition, out of favor, financially leveraged, stressed or distressed, or potentially troubled and may be or have recently been involved in major strategic actions, restructurings, bankruptcy, reorganization, or liquidation. These companies may be experiencing, or are expected to experience, financial difficulties that may never be able to overcome.

Private companies are generally not subject to SEC reporting requirements, are not required to maintain their accounting records in accordance with generally accepted accounting principle, and are not required to maintain effective internal controls over financial reporting. As a result, the Adviser may not have timely or accurate information about the business, financial condition and results of operations of the private companies in which the Fund invests. There is risk that the Fund may invest on the basis of incomplete or inaccurate information, which may adversely affect the Fund's investment performance.

Additional Fund risks include, but are not limited to: the fund has no operating history, shares are subject to substantial restrictions on transferability and may not be transferred or resold except as summarized in the Prospectus and permitted under the Fund's agreement and declaration of trust, dependence on the Adviser and key personnel that could impact the Fund if changes occur, restrictions on transfers, non-diversification of investments, valuation risks, strategy-specific risks, and portfolio investment risks.

**Investors should consider the investment objectives, risks, charges and expenses carefully before investing. For a prospectus or summary prospectus with this and other information about the Fund, please visit [www.ccaf.com](http://www.ccaf.com) . Read the prospectus or summary prospectus carefully before investing.**

## Constitution Capital Partners

Constitution Capital, with offices in Boston and New York, is a leading alternative asset manager focused on private equity and private credit investments. The firm is a disciplined, value-oriented investor with a demonstrated track record of consistently generating risk-adjusted returns. The firm is led by an experienced, cohesive team of investment professionals with significant experience investing in partnerships, direct equity, and opportunistic credit. For more information about Constitution Capital, please see: [www.concp.com](http://www.concp.com).

Shares are not listed on any securities exchange and it is not anticipated that a secondary market for Shares will develop. Shares are subject to substantial restrictions on transferability and resale and may not be transferred or resold except as permitted under the LLC Agreement. Although the Fund may offer to repurchase Shares from time to time, Shares will not be redeemable at a Shareholder's option nor will they be exchangeable for shares of any other fund. As a result, an investor may not be able to sell or otherwise liquidate his or her Shares. The Adviser anticipates recommending that, under normal market circumstances, the Fund conduct repurchase offers of no more than 5% of the Fund's net assets each quarter. Shares are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program. The Fund has a limited operating history and the shares have no history of public trading.

# PRIVATE EQUITY STRATEGY CHARACTERISTICS

CCAF seeks to offer a complete private equity solution through blend of **return generating assets** and **J-Curve mitigating assets** to produce an **optimized, self-funding private equity portfolio**

## MATURE PRIMARIES

- Private equity fund commitments
- Vintages 2015 and earlier (10+ years into life)
- Deep into the harvesting phase
- Highest potential for near-term liquidity

## MID-LIFE PRIMARIES

- Private equity fund commitments
- Vintages 2016 to 2021 (4-9 years into life)
- Deep into value creation; entering harvesting
- Opportunity for asset appreciation
- Higher potential for near-term liquidity

## Strategy Detail<sup>3,4,5</sup>

## NEW DIRECT INVESTMENTS

- Co-invest, credit, and single-asset vehicles
- Invested at the beginning of the transaction
- Highest potential upside
- Capital invested quickly and fee efficient

## MATURE DIRECT INVESTMENTS

- Co-invest in performing private companies
- Invested 2-3 years into investment life
- Reduced execution risk, shorter hold periods
- Capital invested quickly and fee efficient

## NEW PRIMARIES

- Private equity fund commitments
- Vintages 2022+ (<2 years into fund life)
- Final close investments with embedded value
- Highest potential upside for fund investment

Note: In private equity, the J-Curve represents the tendency of private equity funds to post negative returns in the initial years and then post increasing returns in later years when the investments mature. See endnotes for further details. \*Direct Investments (Equity Co-Invest and Direct Credit) are generally completed on a no fee, no carry basis, however CCAF fund level management fees and expenses still apply.

## Endnotes

1. The Fund expects to offer investors limited quarterly liquidity through a tender offer process. Under normal market conditions, the Fund's investment adviser, Constitution Capital PM, L.P. (the "Adviser") expects to recommend that the Fund repurchase 5% of its outstanding shares of beneficial interest of the Fund ("Shares") at their net asset value (NAV). No assurance can be given that such tender offers will be approved by the Fund's Board of Trustees. If a tender offer is oversubscribed, investors may be subject to a pro rate reduction in the Shares ultimately repurchased by the Fund unless the Fund increases the size of the tender offer. All terms of each tender offer will be publicly disclosed.
2. The Fund defines "high-quality investments" as investments that reflect the Fund's target underlying investment attributes, including but not limited to, (i) well-established leaders/management teams, (ii) organizational depth, (iii) secular tailwinds, (iv) attractive financial profile with regard to growth, profitability, capital intensity, solvency and liquidity, (v) structured with prudent levels of debt relative to comparable companies in the industry, (vi) enterprise valuations at entry consistent with, or a discount to, public comparable companies and precedent transactions, and (vii) clear and actionable value creation plans that minimize downside exposure. High-quality investments relate to the investment universe of companies that the Adviser deems to be of high-quality and not the credit rating of the Fund's investments. These target underlying investment attributes, in addition to strategy- and security-specific considerations, inform how the Adviser approaches its assessment of investments in Private Assets.
3. Information based on December 31, 2025, fair market value of investments, excluding cash and cash equivalents.
4. Holdings are subject to change.
5. Although Constitution Capital Access Fund shares are 1933 Act-registered, Shares of the Fund are subject to significant transfer restrictions. In addition, no secondary market for such Shares is expected to exist.
6. Percentage may not total 100% due to rounding.
7. Vintage year refers to the year in which the first investment of a fund is made or the initial investment into a company is made. Equity Co-Investments refers to direct equity investments in private companies, made alongside a General Partner. Primaries refers to limited partnership interests in private equity funds. Credit refers to direct investments in the private debt issued by operating companies.
8. Although the terms listed in this column are common for traditional private equity funds, the terms of many such funds may deviate, and in some cases materially, from these in one or more respects. Investment objectives, safety, guarantees or insurance, and potential fluctuation of principal or return are generally consistent between fund structures. Costs and expenses Firm may generally be higher in a closed-end tender offer structure.
9. Based on CCAF's target fund composition as of January 2026. For Direct Investments, fund level management fees and expenses still apply.
10. Firm AUM based on cumulative capital commitments. Includes Constitution Capital Access Fund's gross assets and the amount of capital received from subscriptions effective January 1, 2026.
11. The Fund pays an Investment Management Fee equal to 1.50% on an annualized basis. There is a management fee waiver of 0.25% in effect through June 2026 making the effective management fee 1.25% on an annualized basis through that date.
12. At the end of each calendar quarter (and at certain other times), the Adviser will be entitled to receive an amount (the "Incentive Fee") equal to 10% of the excess, if any, of (i) the net profits of the Fund for the relevant period over (ii) the then balance, if any, of the Loss Recovery Account. For the purposes of the Incentive Fee, the term "net profits" shall mean the amount by which the net asset value of the Fund on the last day of the relevant period exceeds the net asset value of the Fund as of the commencement of the same period, including any net change in unrealized appreciation or depreciation of investments and realized income and gains or losses and expenses (including offering and organizational expenses).
13. Although the Shares will be registered under the Securities Act, the Shares will be sold only to persons or entities that are both "accredited investors," as defined in Section 501(a) of Regulation D under the Securities Act, and "qualified clients," as defined in Rule 205-3 under the Advisers Act. The qualifications required to invest in the Fund will appear in subscription documents that must be completed by each prospective investor.
14. "EBITDA" is an abbreviation for Earnings Before Interest, Taxes, Depreciation, and Amortization; "Enterprise Value" is the total value of a company including value owned by debt and equity investors; "Purchase Multiple" is the ratio of Enterprise Value to the company's EBITDA; "Leverage Multiple" is the ratio of debt, net of cash, to EBITDA.
15. A Qualified Client ("QC") must meet one of the following criteria (i) An individual with at least \$1.1 million in assets under management with the advisor immediately after entering into an investment advisory contract with the advisor. (ii) An individual with a net worth of more than \$2.2 million, either by themselves or jointly with a spouse, immediately before entering into an advisory contract, excluding the value of their primary residence. (iii) An individual who meets the definition of a "qualified purchaser" at the time an advisory contract is entered into, which requires ownership of at least \$5 million of investments.
16. An Accredited Investor ("AC") must meet one of the following criteria (i) An individual with gross income exceeding \$200,000 in each of the two most recent years or joint income with a spouse or partner exceeding \$300,000 for those years and a reasonable expectation of the same income level in the current year. (ii) A person whose individual net worth, or joint net worth with that person's spouse or partner, exceeds \$1,000,000, excluding the person's primary residence.
