## Important Information and Risks

**Past performance is not a guarantee of future results.** An investment in the Fund involves a high degree of risk and therefore should only be undertaken by qualified investors whose financial resources are sufficient to enable them to assume these risks and to bear the loss of all or part of their investment. The Fund and Constitution Capital do not guarantee any level of return or risk on investments and there can be no assurance that the Fund's investment objective will be achieved.

An investment in the Fund should be considered illiquid. An investment in the Fund is not suitable for investors who need access to the money they invest. Although the Fund may offer to repurchase a limited amount of its shares via quarterly tender offers, the Fund's shares will not be redeemable, transferrable, or otherwise exchangeable at an investor's option. As a result, an investor may not be able to sell or otherwise liquidate its shares. There can be no assurance that the Fund will conduct tender offers in any particular period and investors may be unable to tender their shares for repurchase for an indefinite period of time. Additional Fund risks include, but are not limited to: the fund has no operating history, shares are subject to substantial restrictions on transferability and may not be transferred or resold except as summarized in the Prospectus and permitted under the Fund's agreement and declaration of trust, dependence on the Adviser and key personnel that could impact the Fund if changes occur, restrictions on transfers, non-diversification of investments, valuation risks, strategy-specific risks, and portfolio investment risks.

**Investors should consider the investment objectives, risks, charges and expenses carefully before investing. Read the prospectus or summary prospectus carefully before investing.**
