Capital Partners

**FOR IMMEDIATE RELEASE**

**CONSTITUTION CAPITAL ACCESS FUND NOW AVAILABLE ON CONWAY  
INVESTMENT SOLUTIONS**

**BOSTON, NEW YORK, & LONDON – October 3, 2025** – Constitution Capital Partners (“CCP” or the “Firm”), a global alternative asset manager focused on middle market private equity and private credit, is pleased to announce that the Constitution Capital Access Fund (“Access Fund” or the “Fund”) is now available on the Alternatives Platform at Conway Investment Solutions (“Conway”). Conway’s Alternatives Platform connects financial advisors to leading alternative investment managers by combining innovative technology with their legacy of institutional research.

In October 2022, CCP launched the Access Fund, a registered closed-end tender offer fund. The Fund provides accredited investors and qualified clients with a simple way to access a diversified portfolio of high-quality private equity and private credit assets through a single allocation. It also offers monthly valuations and subscriptions, along with quarterly tender opportunities, providing greater transparency and periodic liquidity than traditional private market vehicles.

“We are excited to launch the Access Fund on this new alternatives platform, which broadens access to high-quality private equity and private credit opportunities,” said Dan Cahill, CEO at Constitution Capital Partners. “The Fund represents an important step in delivering the diversification, transparency, and flexibility that investors are increasingly seeking in private markets.”

“As part of Conway’s ongoing evolution to make alternative investments more accessible to investment advisors and their clients, we are very excited to partner with Constitution – a private markets specialist that we have known and respected for more than a decade,” said Roger Brown, Managing Partner at Conway Investment Solutions.

The Access Fund directly invests in private companies, primary funds, and secondary offerings. For additional information on the Access Fund, please visit [www.ccacf.com](http://www.ccacf.com) or contact us at 978-749-9600.

Investments involve risk including the risk of loss. Any investment in the Fund should be considered illiquid. An investment in the Fund is not suitable for investors who need access to the money they invest. Although the Fund may offer to repurchase a limited amount of its shares via quarterly tender offers, the Fund's shares will not be redeemable, transferrable, or otherwise exchangeable at an investor's option. As a result, an investor may not be able to sell or otherwise liquidate its shares. There can be no assurance that the Fund will conduct tender offers in any particular period and investors may be unable to tender their shares for repurchase for an indefinite period of time. Additional Fund risks include, but are not limited to: the fund has no operating history, shares are subject to substantial restrictions on transferability and may not be transferred or resold except as summarized in the Prospectus and permitted under the Fund's agreement and declaration of trust, dependence on the Adviser and key personnel that could impact the Fund if changes occur, restrictions on transfers, non-diversification of investments, valuation risks, strategy-specific risks, and portfolio investment risks.
